About

I set out to become a zoologist but got massively derailed by impact-oriented cost–benefit analyses. After finishing my virology Ph.D. and exploring and evaluating technical biosecurity interventions, I now focus on solving AI–biosecurity.

Experience

Director of AI, SecureBio July 2026 – present
- Leading SecureBio AI.

Head of AI Research, SecureBio Jan 2026 – June 2026
- Led the 4-person research arm of SecureBio AI and coordinated research fellows.

Research Scientist, AI Team, SecureBio May 2024 – Dec 2025
- First author of the Virology Capabilities Test (VCT). Led the development of SecureBio's evaluation dashboard and other AI benchmarks.

Research Fellow, Convergent Research Sept 2022 – Oct 2024
- Roadmapping technical biosecurity interventions with a focus on far-UVC air disinfection (report), including organizing academic workshops, writing reports and recommendations, and interfacing with scientists, funders, and policymakers.

Research Contractor, Ellison Institute of Technology Oxford May 2024 – Aug 2024
- Research on clinical MGS host nucleic acid depletion for EIT's Pathogen Mission.

Data Science Boot Camp, The Data Incubator at Data Reply, Munich Feb 2018 – Mar 2018
- 8-week data science boot camp: SQL, web scraping, (un)supervised machine learning, deep learning, NLP, time series, MapReduce, and Spark
- Capstone project: identification of roof solar panels on satellite imagery using CNNs

Education

Ph.D. Virology, Hannover Medical School Sept 2018 – June 2022
- Thesis at the Schulz Lab, Institute of Virology: "DNA viral genomic diversity data for epidemiologic and diagnostic studies"
- *Summa cum laude* (with distinction); Infection Biology Ph.D. Thesis Prize
- Student representative of the Infection Biology Ph.D. program

M.Sc. Biomedical Science, Hannover Medical School Oct 2014 – Feb 2017
- Thesis at the Institute for Biophysics, University Osnabrück

B.Sc. Biology, Leibniz University Hannover Oct 2011 – Sept 2014
- Thesis at the Neuroanatomy Institute, Hannover Medical School
- Teaching assistant in physiology; field assistant for a mouse lemur population study in northern Madagascar

Fellowships & Honors

Emerging Leaders in Biosecurity (ELBI) Fellow 2026
Johns Hopkins Center for Health Security

Foresight Fellow 2025
Foresight Institute

New European Voices on Existential Risk (NEVER) network member 2023
European Leadership Network

Infection Biology Ph.D. Thesis Prize July 2022
Hannover Biomedical Research School

Talks & Podcasts

Biological threats: Going viral June 2024
Podcast guest, *Ok, Doomer! The NEVER podcast*, European Leadership Network

Biosecurity: A Technical Perspective Sept 2023
Talk, EAGxBerlin 2023

Prävention globaler katastrophaler biologischer Risiken und Far-UVC May 2023
Podcast guest, *Prioritäten Podcast* (in German)

Biosecurity: A Technical Perspective Sept 2022
Talk, EAGxBerlin 2022

Viruses, Pandemics and Effective Altruism Sept 2021
Podcast guest, *The Transformative Ideas Podcast*

Skills

Lab & bioinformatics: High-throughput sequencing workflows (Illumina SBS, Nanopore); bioinformatics CLI tools and suites (e.g., CLC, Geneious Prime) for sequencing data analysis and phylogenetics

Biosafety & biosecurity: State-approved course §15 GenTSV for project leaders and responsible persons for biosafety

Programming & ML: Python, R, Bash, SQL (intermediate); LLM evaluations with Inspect AI

Courses: Machine Learning in R (University of Cambridge); Machine Learning (Stanford, Coursera); Bayesian Statistics, with honors (UC Santa Cruz, Coursera)

Communication: Public speaking (EAGx talks, podcasts, academic conferences, general audiences); alumnus of the Center for Applied Rationality (CFAR) programme

Languages: German (native), English (fluent), Mandarin (basic), Latin (intermediate certificate)

Other Engagements

- Member of the Pandemic Preparedness & Biosecurity working group at the Global Health Hub Germany
- Board member of Effective Altruism Germany (2023–2025)
- Specialist and mentor for 80,000 Hours and HI-Med advisees
- Former Pandemics course facilitator for BlueDot Impact
- Co-organizer of the 1st Singer Symposium on Biosecurity, a two-day symposium near Oxford, UK, for early-career people working on GCBRs (2022)
- Science communication and high school student engagement with I'm a Scientist
- Former outreach support & speaker for the Effective Altruism Foundation, Berlin
- Co-founder of the Effective Altruism chapters Osnabrück and Hannover
- Member of Mensa International
- Former member of the animal rights student group Osnabrück

Personal Interests

Gamemastering for TTRPG groups, hiking, and drumming to/exploring weird music.

Publications

BioTIER: A Refusal Benchmark for Targeted Biological Risk Mitigation July 2026
E. M. Marshall, P. Medeiros, P. Peneder, N. Mak, J. Kaffey, F. Rovenolt, M. Walker, S. Donoughe, **J. Götting**
arxiv.org/abs/2607.14479 (arXiv preprint arXiv:2607.14479)

LLM Novice Uplift on Dual-Use, In Silico Biology Tasks Feb 2026
C. B. C. Zhang, C. Q. Knight, N. Kruus, J. Hausenloy, P. Medeiros, …, **J. Götting**, …, J. Michael
arxiv.org/abs/2602.23329 (arXiv preprint arXiv:2602.23329)

RNA-interactome capture identifies SRSF3 as a key protein for herpesviral gene expression July 2025
C. Vogt, M. van Ham, R. Bhowmik, A. Argoetti, D. P. Depledge, …, **J. Götting**, …, J. Bohne
